EUVABECO Launches Pilot Phase with Draft Implementation Plans for Five Vaccination Tools

EUVABECO Launches Pilot Phase with Draft Implementation Plans for Five Vaccination Tools

5 November 2024(<https://euvabeco.eu/2024/11/05/>)

EUVABECO has officially launched the pilot phase by publicly releasing draft implementation plans. These plans, available in the resource section of our website (links below), will guide the deployment of five tools designed to strengthen vaccination programs across European Union Member States:

- **Clinical Decision Support System (CDS)** (https://euvabeco.eu/wp-content/uploads/2024/10/D5_1_1-Draft-IPlan-for-CDS-Web.pdf)
- **Data Linkage Tool** (https://euvabeco.eu/wp-content/uploads/2024/10/D5_1_2-Draft-IPlan_Data-Linkage-Web.pdf)
- **Electronic Patient Information Leaflet (ePIL)** (https://euvabeco.eu/wp-content/uploads/2024/10/D5_1_3-Draft-IPlan-for-ePIL-Web.pdf)
- **European Vaccination Card (EVC)** (https://euvabeco.eu/wp-content/uploads/2024/10/D5_1_5-Draft-IPlan-for-EVC-Web.pdf)
- **Forecasting Tool** (https://euvabeco.eu/wp-content/uploads/2024/10/D5_1_4-Draft-IPlan-for-forecasting-Web.pdf)

From 2024 to 2025, pilot projects will rigorously test and refine each plan in real-world settings across diverse regions. Upon project completion in June 2026, the validated, finalized plans will be published.

By offering adaptable implementation plans for this suite of optional tools, EUVABECO aims to support countries in strengthening their vaccination programs according to their unique needs and circumstances, ultimately fostering a more coordinated and resilient public health response across Europe.
